Forensic Science International

SUBJECT INDEX
Volume 61 (1993)

amitriptyline, formalin-fixed tissues, tricyclic antidepressants (tricyclics), nortriptyline, imipramine, desipramine, formalin, 175
anti-HHB serum, human hepatic bile, blood-group substance, organ specificity, species specificity, faeces, 7
autopsy specimens, secretor status, Lewis blood group, 133

band-shift, DNA-profiling, RFLP, VNTR, single locus probes, stains, criminal cases, statistical analysis, measurement errors, correlation of errors, match criteria, 21
blood-group substance, human hepatic bile, anti-HHB serum, organ specificity, species specificity, faeces, 7
bloodstain, saliva stain, human, chimpanzee, 101
bruising, glycophorin A, immunological methods, postmortem discoloration, 111
burn, local vital reaction, C3a or C3a desArg, immuno-western blotting, guinea pig, 43

C3a or C3a desArg, local vital reaction, immuno-western blotting, burn, guinea pig, 43
cathine, khat, cathinone, derivatization, identification, resolution, 53
cathinone, khat, cathine, derivatization, identification, resolution, 53
chimpanzee, bloodstain, saliva stain, human, 101
chromatographic analysis, methamphetamine, positional isomers, mass spectrometry, 169
collagen type III, immunohistochemisty, putrefaction, fibronectin, laminin, cytokeratin 5, 35
correlation of errors, statistical analysis, DNA-profiling, RFLP, VNTR, single locus probes, stains, criminal cases, measurement errors, band-shift, match criteria, 21
criminal cases, DNA-profiling, RFLP, VNTR, single locus probes, stains, statistical analysis, measurement errors, band-shift, correlation of errors, match criteria, 21
CT, forensic anthropology, frontal sinus, personal identification, 141
cytokeratin 5, immunohistochemisty, putrefaction, fibronectin, collagen type III, laminin, 35

death, reverse suspension, head-down position, postural changes of circulation, positional asphyxia, 119
derivatization, khat, cathinone, cathine, identification, resolution, 53
desipramine, formalin-fixed tissues, tricyclic antidepressants (tricyclics), amitriptyline, nortriptyline, imipramine, formalin, 175
determination, firing distance, firing angle, gunshot residues pattern, neutron activation analysis, 75
DNA-profiling, RFLP, VNTR, single locus probes, stains, criminal cases, statistical analysis, measurement errors, band-shift, correlation of errors, match criteria, 21

environmental contamination, fentanyl, hair analysis, immunoassay, 65

faeces, human hepatic bile, blood-group substance, anti-HHB serum, organ specificity, species specificity, 7
fentanyl, hair analysis, immunoassay, environmental contamination, 65
fibronectin, immunohistochemisty, putrefaction, collagen type III, laminin, cytokeratin 5, 35
firing angle, determination, firing distance, gunshot residues pattern, neutron activation analysis, 75
firing distance, determination, firing angle, gunshot residues pattern, neutron activation analysis, 75
footprints, stature, stride length, 1
forensic anthropology, CT, frontal sinus, personal identification, 141
formalin, formalin-fixed tissues, tricyclic antidepressants (tricyclics), amitriptyline, nortriptyline, imipramine, desipramine, 175
formalin-fixed tissues, tricyclic antidepressants (tricyclics), amitriptyline, nortriptyline, imipramine, desipramine, formalin, 175

frontal sinus, forensic anthropology, CT, personal identification, 141

glycophorin A, bruising, immunological methods, postmortem discoloration, 111
guinea pig, local vital reaction, C3a or C3a desArg, immuno-western blotting, burn, 43
gunshot residues pattern, determination, firing distance, firing angle, neutron activation analysis, 75

hair analysis, fentanyl, immunoassay, environmental contamination, 65
head-down position, death, reverse suspension, postural changes of circulation, positional asphyxia, 119
human hepatic bile, blood-group substance, anti-HHB serum, organ specificity, species specificity, faeces, 7
human, bloodstain, saliva stain, chimpanzee, 101

identification, khat, cathinone, cathine, derivatization, resolution, 53
imipramine, formalin-fixed tissues, tricyclic antidepressants (tricyclics), amitriptyline, nortriptyline, desipramine, formalin, 175
immuno-western blotting, local vital reaction, C3a or C3a desArg, burn, guinea pig, 43
immunoassay, fentanyl, hair analysis, environmental contamination, 65
immunohistochemisty, putrefaction, fibronectin, collagen type III, laminin, cytokeratin 5, 35
immunological methods, bruising, glycophorin A, postmortem discoloration, 111

khat, cathinone, cathine, derivatization, identification, resolution, 53

laminin, immunohistochemisty, putrefaction, fibronectin, collagen type III, cytokeratin 5, 35
Lewis blood group, secretor status, autopsy specimens, 133
local vital reaction, C3a or C3a desArg, immuno-western blotting, burn, guinea pig, 43

mass spectrometry, methamphetamine, positional isomers, chromatographic analysis, 169
match criteria, statistical analysis, DNA-profiling, RFLP, VNTR, single locus probes, stains, criminal cases, measurement errors, band-shift, correlation of errors, 21
measurement errors, DNA-profiling, RFLP, VNTR, single locus probes, stains, criminal cases, statistical analysis, band-shift, correlation of errors, match criteria, 21
methamphetamine, positional isomers, chromatographic analysis, mass spectrometry, 169

neutron activation analysis, determination, firing distance, firing angle, gunshot residues pattern, 75
nortriptyline, formalin-fixed tissues, tricyclic antidepressants (tricyclics), amitriptyline, imipramine, desipramine, formalin, 175

organ specificity, human hepatic bile, blood-group substance, anti-HHB serum, species specificity, faeces, 7

personal identification, forensic anthropology, CT, frontal sinus, 141
phencyclidine, synthetic methods, review, 85
positional asphyxia, death, reverse suspension, head-down position, postural changes of circulation, 119
positional isomers, methamphetamine, chromatographic analysis, mass spectrometry, 169
postmortem discoloration, bruising, glycophorin A, immunological methods, 111
postural changes of circulation, death, reverse suspension, head-down position, positional asphyxia, 119
putrefaction, immunohistochemisty, fibronectin, collagen type III, laminin, cytokeratin 5, 35

resolution, khat, cathinone, cathine, derivatization, identification, 53
reverse suspension, death, head-down position, postural changes of circulation, positional asphyxia, 119
review, phencyclidine, synthetic methods, 85
RFLP, DNA-profiling, VNTR, single locus probes, stains, criminal cases, statistical analysis, measurement errors, band-shift, correlation of errors, match criteria, 21

saliva stain, bloodstain, human, chimpanzee, 101
secretor status, Lewis blood group, autopsy specimens, 133
shock, tourniquet shock, trauma, sudden death, 185
single locus probes, DNA-profiling, RFLP, VNTR, stains, criminal cases, statistical analysis, measurement errors, band-shift, correlation of errors, match criteria, 21
species specificity, human hepatic bile, blood-group substance, anti-HHB serum, organ specificity, faeces, 7
stains, DNA-profiling, RFLP, VNTR, single

locus probes, criminal cases, statistical analysis, measurement errors, band-shift, correlation of errors, match criteria, 21
statistical analysis, DNA-profiling, RFLP, VNTR, single locus probes, stains, criminal cases, measurement errors, band-shift, correlation of errors, match criteria, 21
stature, footprints, stride length, 1
stride length, stature, footprints, 1
sudden death, shock, tourniquet shock, trauma, 185
synthetic methods, phencyclidine, review, 85
tourniquet shock, shock, trauma, sudden death, 185
trauma, shock, tourniquet shock, sudden death, 185
tricyclic antidepressants (tricyclics), formalin-fixed tissues, amitriptyline, nortriptyline, imipramine, desipramine, formalin, 175

VNTR, DNA-profiling, RFLP, single locus probes, stains, criminal cases, statistical analysis, measurement errors, band-shift, correlation of errors, match criteria, 21
